- Version 1.8.1.0
- Custom Data / Module
 - Home page and widgets
 - Added some products and their description

The screenshot displays a Magento 1.8.1.0 storefront. The header features the Magento logo, a search bar with the text "Search entire store here...", and navigation links: "My Account", "My Wishlist", "My Cart", "Checkout", and "Log In". A "Default welcome msg!" is also visible. Below the header, a dark blue banner displays "Electronics" and a long alphanumeric code: "mu-e1adf4d8-013650d1-dc985c82-19a5dcda".

The main content area is titled "Home Page" and features a large red banner with the text "Your Banner Title" and "Click to customize this text". To the right of the banner is a laptop displaying the "OpenERP" website. Below the banner, there is a table of products:

Product Name	Price
Conference pearls	1.70 €
Fishing	5.10 €
Peach	5.70 €

Below the table, there are images of various fruits. To the right of the main content area, there are three widgets: "COMPARE PRODUCTS" (stating "You have no items to compare."), "MY CART" (stating "You have no items in your shopping cart."), and "COMMUNITY POLL" (stating "What is your favorite color" with a radio button next to "Green").

At the bottom, there is a section titled "A Section Subtitle" with the text "Write one or two paragraphs describing".

As browser can load only 4 files in parallel on midsize traffic website, then latency time and number of resources to download impact time to load more resources

Odoo load **faster** because concatenate several files, minify and gzip the content, even all the modules installed

W3C Check

Using: W3C Markup Validation	Odoo (ver. Saas4)	Drupal (ver. 7.27)	Magento (ver. 1.8.1.0)	Prestashop (ver. 1.6.0.6)
Home Page	29 Errors	0 Errors	2 Errors	4 Error
Product Catalogue	68 Errors	2 Errors	2 Errors	122 Errors
Product	10 Errors	0 Errors	1 Error	4 Errors

Odoo's main problem

- Element meta is missing one or more of the following attributes: content, property.
- An img element must have an alt attribute, except under certain conditions
- The width attribute on the table element is obsolete. Use CSS instead.

Team is working on those issues , will be fixed soon
